

## STANDARD SHEETS

---

### CARIBBEAN MODEL

Dimensions: 80 cm x 63 cm

Permeable area: 27 cms

Fringe area: 36 cms

### PACIFIC MODEL

Dimensions: 78 cm x 63 cm

Permeable area: 27 cms

Fringe area: 36 cms

Note: Due to manufacturing processes, synthetic palm may have slight variations in tone, weight, and measurements, just like the characteristics of natural palm.

## ACCESSORIES

Unique pieces, designed to optimize the installation of our material, ensuring the permeability of a palapa, whether it's a ridge, corner, or cone.

### RIDGE

#### CARIBBEAN

Length: 1.05 m  
Width: 80cm

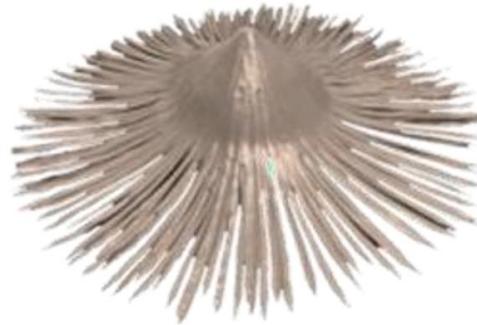

#### Pacific Ridge

Length: 1.05 m  
Width: 78 cm

### LARGE CONE

For conical palapas or umbrella tops with a tilt of up to 45°, it facilitates installation. Its flexible, adjustable blade ensures an aesthetic finish and permeability at the top.

Diameter: 80 cm to 1 m  
Permeable area: 25 cm  
Fringe area: 28 cm

### LONG BLADE

Designed for the perimeter of the palapa ensuring a better finish with greater volume

Length: 85 cms  
Width: 80cms  
Permeable area: 27 cm  
Fringe area: 58 cms
